

**WORKSHOPS[®]
FOR WARRIORS**

**Rebuilding American Manufacturing,
One Veteran At A Time[®]**

Headquartered in San Diego, California, Workshops for Warriors provides veterans, transitioning service members, and civilians with accelerated training in advanced manufacturing. After just 16 weeks, students can earn nationally recognized credentials in Welding or CNC Machining that can open doors to careers across the country.

Machining for Warriors

At WFW, we will provide classroom instruction and hands-on training on state-of-the-art equipment required to develop skilled CNC Machinists and CAD/CAM Programmers. Students will earn industry recognized certifications to prepare them for employment as certified CNC Machinists or CAD/CAM Programmers. Upon completion the student will successfully operate and qualify to all required machining standards in Machining, Measurement, Materials and Safety, Job Planning, Bench work and Layout, Grinding, Computer Numerical Control, and CAD/CAM.

Machining 1 Credentials

Immerse2Learn
Mastercam University
NC3 (National Coalition of Certification Center)
NIMS (National Institute of Metalworking Skills)
Solid Professor
SolidWorks
Strarrett PMI (Precision Measurement Instruments)

Machining 2 Credentials

GeoTol Pro
Mastercam University
Solid Professor
SolidWorks

Machining 3 Credentials

Mastercam University
Solid Professor

Careers

- CNC Operator
- Medical devices
- Aerospace
- Defense and Military
- Heavy Machinery

Timeline to Completion

- 16 weeks
- 640 clock hours
